

## Innovative Solutions

### Franchise and Direct Distribution Lines

America II is one of the world's largest distributors of semiconductors and electronic components. We offer the most complete range of products, from active, passive and electromechanical components to memory and specialty products. America II partners with the world's top manufacturers and serves as a primary supplier for OEM and EMS customers around the world.

America II's objective is to bring value to our customers' supply chain. As a result, we developed a line card that includes the products and manufacturers our customers can depend on. We offer the largest selection of components at competitive prices, while delivering exceptional service to our customers around the world.
